Official Invitation to Participate – HealthX26 Multidisciplinary International Conference and Expo

Dear University President,

Warm Lasallian greetings.

The School of Advanced Studies of De La Salle Medical and Health Sciences Institute (DLSMHSI) respectfully invites your esteemed institution to participate in HealthX26: Multidisciplinary International Conference and Expo – “Innovation in Health Sciences Amid Complexity and Change,” to be held on April 11–12, 2026 in hybrid format (onsite at the Animo Center, DLSMHSI, Dasmariñas, Cavite, and via Zoom).

HealthX26 is an international academic conference designed to convene educators, researchers, clinicians, academic leaders, and students across health-related disciplines in response to the growing complexity of contemporary health systems. The conference seeks to promote interdisciplinary dialogue, ethical innovation, and evidence-based practices that address emerging challenges in healthcare, education, public health, psychology, allied health sciences, and digital health technologies.

The primary objectives of HealthX26 are to:

- Provide an international platform for research dissemination and scholarly exchange
- Strengthen institutional research culture and collaborative networks
- Promote innovation in teaching, clinical practice, and community engagement
- Encourage multidisciplinary integration in addressing complex health issues
- Support continuing professional development and lifelong learning

We welcome participation in the form of oral paper presentations, poster presentations, multidisciplinary research panels, and innovation showcases. Faculty members, graduate students, undergraduate researchers, and allied health professionals are encouraged to submit abstracts and attend the conference. Undergraduate and senior high school researchers may participate, subject to established presentation guidelines and institutional endorsement.

Participation in HealthX26 offers several key benefits to institutions and individual delegates:

- International exposure for faculty and student research
- Opportunities for inter-institutional and cross-disciplinary collaboration
- Eligibility for Continuing Professional Development (CPD) units (application in process for relevant professions)
- Academic documentation and recognition of presented research
- Engagement in high-level discussions on artificial intelligence in health sciences, human-centered health systems, interprofessional education, and ethical practice
