EDUCATIONAL ASTRONOMY ACTIVITIES OF PYXIS SOLUTIONS INC.
FOR SCHOOL YEAR 2023–2024

The Pyxis Solutions Inc. will organize Educational Astronomy Activities for schools within the various regions and divisions in the country for School Year 2023–2024:

Activity	Objective/Description
Cosmo Quest: Journey Beyond the Stars!	A gamified rotating astronomy exhibit designed to introduce young learners to the wonders of the universe. By combining interactive displays with informative content, students will gain insights into the daily activities of astronomers.
Beyond Horizons: An Astronomy Seminar Workshop	A hands-on astronomy-themed daytime seminar designed to provide students with a deeper understanding of current trends in the field of science. Notable experts in the astronomy community will share their experiences and research, fostering a direct connection between academic theories and real-world applications.
Star Trails: Camp under the Stars!	An overnight stargazing experience camp dedicated to nurturing a genuine passion for astronomy. Participants will engage in sky navigation, use telescopes for actual stargazing, and learn about celestial phenomena.

All events will be held within school campuses or appropriate venues, ensuring safety and accessibility for all participants.

The target audience is Kindergarten to Grade 12 learners from both public and private schools.

Participation of learners and teachers from public and private schools shall be purely voluntary and will not hamper instructional time in compliance with the provisions of DepEd Order (DO) No. 34, s. 2022 titled School Calendar and Activities for the School Year 2022–2023 and DO 9, s. 2005 titled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith and the policy on off-campus activities stated in DO 66, s. 2017.
