**INVITATION TO PARTICIPATE IN THE “AI CAN WORK: PRACTICAL AI SKILLS
FOR WORK AND PRODUCTIVITY” TRAINING PROGRAM**

The Hapinoy (AtIindahan Inc.), in partnership with the Asian Venture Philanthropy Network (AVPN), with support from Google.org and the Asian Development Bank (ADB), is conducting a training program entitled “AI Can Work: Practical AI Skills for Work and Productivity.”

The program aims to equip government personnel with practical knowledge and skills in using artificial intelligence (AI) tools to improve workplace efficiency, productivity, communication, planning, report writing, data organization, and administrative task management.

The training will be conducted through face-to-face and/or online sessions, with a duration of approximately 1.5 to 2 hours per session. The program is intended for government personnel across different divisions and functional units

Participation in this activity shall be purely voluntary and subject to the no-disruption-of-classes policy provided under DepEd Order No. 9, s. 2005 (*Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith*), the policy on off-campus activities stated in DepEd Order No. 66, s. 2017, and the provisions of DepEd Order No. 9, s. 2026 on the Three-Term School Calendar, particularly the observance of the instructional block, as well as strict compliance with Republic Act No. 5546, which prohibits the sale of tickets and the collection of unauthorized contributions or fees from learners and school personnel.

ABCJr./INVITATION TO PARTICIPATE IN THE “AI CAN WORK: PRACTICAL AI SKILLS FOR WORK AND PRODUCTIVITY” TRAINING PROGRAM/S2-115390/10-9-2026

September 24, 2026

John
SEP 28 2026
02-115390

Dear Sir/Ma'am,

Warm greetings from Hapinoy!

Hapinoy (At1ndahan Inc.) is a social enterprise that has long worked with communities across the Philippines through capacity-building and learning programs that strengthen productivity, employability, and inclusive growth.

In line with our continued efforts to support future-ready workforce development, we respectfully express our intent to partner with your office for the implementation of our training program:

"AI Can Work! Training: Practical AI Skills for Work and Productivity"

This is a **free face-to-face and/or online training session** designed to introduce practical applications of artificial intelligence (AI) to support government personnel in their day-to-day functions. The training focuses on improving efficiency in administrative work, report writing, communication, data organization, and overall workplace productivity.

This initiative is part of the **AI Opportunity Fund: Asia-Pacific**, implemented by the **Asian Venture Philanthropy Network (AVPN)** with support from **Google.org** and the **Asian Development Bank (ADB)**.

Event Details

Event Name: AI Can Work! Training: Practical AI Skills for Work and Productivity

Format: Face-to-face and/or online

Duration: 1.5 hours to 2 hours

Participants: minimum 30 participants per session

Target Participants: Government personnel across divisions and functional units

Schedule: To be coordinated with your office

Venue / Platform: To be provided by your institution (for face-to-face); Hapinoy will provide online meeting link if virtual

Program Impact

This training supports ongoing efforts to promote digital literacy, innovation, and future-ready skills within the public sector. Through this initiative, participants will be able to:

- Apply AI tools to improve workplace efficiency and task management
- Enhance productivity in writing, planning, communication, and reporting
- Explore AI-assisted approaches to problem-solving and decision-making
- Strengthen digital literacy and adaptability in a technology-driven environment
- Participate in a fully funded program at no cost to the office or participants

Participant Benefits

Participants will receive:

- Hands-on, beginner-friendly AI training
- Practical tools for workplace productivity and administrative tasks
- Introduction to free and accessible AI platforms
- Certificate of Completion
- Eligibility for post-training engagement activities and incentives (e.g., vouchers, gadgets, and other rewards, subject to program guidelines)

What Hapinoy Will Provide

- Training design, materials, and facilitation
- Resource speakers and trainers
- Certificates of completion
- End-to-end program coordination and management

Support We Kindly Request

To help us successfully implement the program, we respectfully request:

- Endorsement of the training within your office
- Assistance in identifying and inviting participants
- Venue support for face-to-face sessions (if applicable)
- Basic audio-visual setup (microphone and speakers)

We believe this training aligns strongly with your office's commitment to strengthening professional development, innovation, and digital readiness in public service. By working together, we aim to equip personnel with practical skills that will enhance their day-to-day work and contribute to more efficient and responsive service delivery.

Thank you very much for your time and consideration. We look forward to the opportunity to partner with your organization in building a more future-ready workforce.

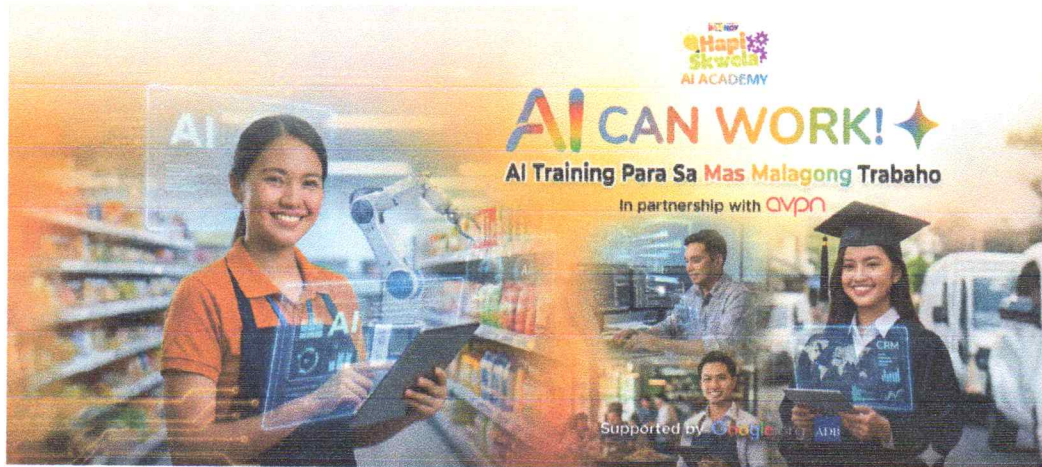

Your partner for development,

Joyce Tadeja

11:30 – 11:35 AM	Photo Opportunity
11:35 – 11:45 AM	Q&A

AI Can Work

AI Skills Training for Workers and Jobseekers

Hapinoy | AVPN | Google.org | Asian Development Bank (ADB)

I. EXECUTIVE SUMMARY

At1ndahan Inc. (Hapinoy) proposes the implementation of “**AI Can Work**,” a practical artificial intelligence (AI) skills training program designed for **workers, young professionals, and job seekers** across the Philippines.

The program is part of the **AVPN AI Opportunity Fund: Asia Pacific**, in collaboration with **AVPN** and supported by **Google.org** and the **Asian Development Bank (ADB)**. Building on Hapinoy’s proven experience in large-scale community-based training, **AI Can Work** aims to equip Filipinos with **job-relevant AI skills** that improve productivity, employability, and career resilience—especially for underserved and transitioning segments of the workforce.

Through partnerships with government agencies, local government units (LGUs), educational institutions, and youth organizations, the program will be delivered **at no cost to partner institutions and participants**, supporting national workforce development and inclusive growth objectives.

II. BACKGROUND AND CONTEXT

A. The Workforce Challenge in the Age of AI

The Philippine workforce is undergoing rapid transformation driven by automation, digitalization, and AI-enabled tools. While AI adoption is accelerating globally, many Filipino workers and jobseekers face critical gaps:

- Limited AI literacy and exposure, especially among rank-and-file workers, informal sector workers, and fresh graduates
- Low confidence in using AI tools for productivity, communication, and job readiness
- Risk of displacement or stagnation due to lack of future-ready skills
- Unequal access to affordable, practical, and beginner-friendly AI training

Without accessible AI upskilling, workers risk being left behind in a labor market increasingly shaped by technology.

B. About Hapinoy and the “AI Can Work” Program

Hapinoy is a nationwide social enterprise with deep experience in community-based training and digital inclusion. Through its **HapiSkwela training arm**, Hapinoy delivers AI education programs tailored to real-world Filipino contexts.

AI Can Work is designed specifically for:

- Employed workers (private sector, LGU staff, MSME employees)
- Jobseekers and unemployed individuals
- Students and out-of-school youth preparing for work (18 years old and above)

The program emphasizes **practical use cases**, simple language (Filipino-English), and hands-on application of AI tools for everyday work and job readiness.

C. AVPN AI Opportunity Fund: Asia Pacific

This Artificial Intelligence Upskilling Program for Filipino Workers is part of the AI Opportunity Fund: Asia-Pacific, an initiative by **Asian Venture Philanthropy Network (AVPN)** with support from **Google.org** and the **Asian Development Bank (ADB)**. The program aims to equip underserved communities across the region with foundational AI skills. Hapinoy, certified by **AI Singapore**, is among the Local Training Providers in the Philippines under this initiative

III. PROGRAM OVERVIEW

A. Training Design

Program Name: AI Can Work

Duration: Approximately 2 hours per training session

Language: Filipino & English (Taglish-based)

Training Channels: Face-to-face or Google Meet sessions

Target Beneficiaries:

- Employed workers
- Jobseekers and unemployed individuals
- Students and the youth preparing for employment (18 years old and above)

Requirements from the Attendees:

- Any working smartphone or laptop or tablet
- Internet connection
- Personal Facebook and Messenger account

Modules:

1. AI Fundamentals for Work
2. AI Tools for Productivity
3. Prompting and Task Optimization
4. Responsible and Ethical AI Use
5. AI Trends and the Future of Work

Certification:

- E-Certificate of Completion for participants who attend the training, complete all Messenger-based registration and modules, and join the AI Can Work community.

Cost: FREE for participants and partner institutions

B. Post-Training Support and Engagement

To improve completion rates and sustained engagement, the program uses:

- Gamification and milestone-based incentives
- Weekly and month raffles and rewards
- Peer support via moderated Facebook group communities
- Messenger-based (Chatbot) reminders and nudges

IV. PROPOSED PARTNERSHIPS AND IMPLEMENTATION

A. What Hapinoy Will Provide

At no cost to partners, Hapinoy will deliver:

- Fully developed and localized AI training curriculum
- Certified trainers and facilitators
- All training decks, materials, and activity guides
- Chatbot infrastructure and engagement flows
- Gamification and incentive mechanisms
- E-certificates for completers

B. Role of Partner Institutions

Partner institutions may support by:

- Endorsing the program to their networks or beneficiaries
- Helping identify and mobilize participant groups
- Coordinating schedules for training sessions
- Providing venues (for face-to-face sessions, if applicable)

V. ALIGNMENT WITH NATIONAL PRIORITIES

Priority Area	Contribution of AI Can Work
Workforce Development	Builds foundational AI and digital skills for workers and jobseekers
Employment & Employability	Enhances productivity, job readiness, and career resilience
Public-Private Collaboration	Demonstrates scalable, zero-cost government collaboration
