BRIDGE BUILDING COMPETITION 2025

The University of the Philippines Association of Civil Engineering Students (UP ACES) is set to commence its 21st National Civil Engineering Summit this September 2025. Part of this Summit, UP ACES will be holding the Bridge Building Competition, where teams of high school learners from various regions around the Philippines compete in constructing strong, economical, and aesthetically pleasing bridges using a limited number of sticks in a time-pressured environment.

Aiming to promote civil engineering nationwide, this Summit aims to open the door to a future where every road, bridge, and building in the Philippines not only reflects engineering excellence but is also built with the people and for the people, strengthening the very core of nation building. UP ACES believes that this event will be a great opportunity for aspiring civil engineers and professionals to go beyond being just builders and also visionaries of surviving and thriving communities.

Participation of public and private schools shall be purely voluntary and will not hamper instructional time in compliance with the provisions of DepEd Order (DO) No. 012, s. 2025 titled Multi-Year Implementing Guidelines on the School Calendar and Activities and DO 9, s. 2005, titled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith and the policy on off-campus activities stated in DO 66, s. 2017.
