SAVING RESOURCES, BETTER PUBLIC SERVICES

2026 Moneywise Briefer

Introduction

The Philippine Development Plan 2023–2028 underscores good governance and efficient resource management as essential foundations for building a resilient, inclusive, and prosperous society. To achieve this, every government office is called not only to **do more with less**, but to critically **examine internal processes, spending patterns, and operational practices** to ensure that public resources are used **efficiently** for their intended purpose.

The Productivity Challenge Program (PCP), led by the Development Academy of the Philippines as the focal organization of the Asian Productivity Organization's (APO) Center of Excellence on Public-Sector Productivity, continues to champion innovative, results-driven initiatives that promote smarter and more accountable governance. After generating innovative ideas (2023 Productivity Spark, saving time (2024 *Fastbreak: 100K Transaction Hours Reduced*) and paper (2025 *Paper-less: 1 Million Sheets Saved*), we now turn our attention to its next strategic focus: **2026 Moneywise: Saving Resources, Better Public Services**.

The challenge invites all public sector organizations to showcase initiatives implemented between **January 2025** and **August 2026** that have generated **cost savings, cost avoidance, or improved value for money** through enhanced review of internal processes, prudent expenditure management, and strengthened financial oversight.

Savings may be realized in key areas such as transportation, warehousing, Maintenance and Other Operating Expenses (MOOEs), electricity, personnel or consultants, and other operational costs. Additional savings may be generated through cost-efficient and resource-rationalizing measures, including reduced paper and printing through digital processes, judicious use of office supplies, centralized procurement, and strengthened inventory control.

By collectively aiming for significant savings, government offices demonstrate adherence to the principles of economy, efficiency, and effectiveness, ensuring that public funds are utilized prudently and redirected toward priority, citizen-centered programs and services.

- Promote operational efficiency and cost-effectiveness
