Program Overview

MICROSOFT ARTIFICIAL INTELLIGENCE BOOTCAMP: WORKSHOP ON M365 AI TOOLS AND LEARNING ACCELERATORS FOR DEPED LEARNERS

In line with the legal frameworks provided by the Philippine Constitution and the Enhanced Basic Education Act of 2013, and other relevant initiatives like the BEDP 2030 and the MATATAG Curriculum General Shaping Paper, which emphasize holistic development, 21st-century skills, and adaptability to tackle modern challenges, the Microsoft Youth Ambassadors (MYA) program, was launched to empower Filipino learners and youth leaders in a technology-driven world. It has produced 572 individuals across its first and second implementations capable of exhibiting proficiency in 21st Century Skills, especially in Digital Literacy. With its substantial learner base, it provides an opportunity to further harness their ability to bring positive changes in their community and rally them to aid in empowering their peers. As a result, the Artificial Intelligence Bootcamp has been designed. This pioneering initiative aims to equip the MYA graduates, Youth Formation Coordinators, and Youth Formation Division staff, with knowledge about Artificial Intelligence and Cloud Technologies. Microsoft Learn will be used to give participants the necessary credentials and skills for educational growth.

Thus, the Operations Strand through Bureau of Learner Support Services (BLSS) – Youth Formation Division (YFD), in collaboration with Microsoft Philippines, will conduct the **Microsoft Artificial Intelligence (AI) Bootcamp: Workshop on M365 AI Tools and Learning Accelerators for DepEd Learners** virtually via Microsoft Teams from **April 23 to May 11, 2024,** every **Tuesdays (For YFCs and YFD Staff)** and **Saturdays (For MYAs)**. Up to 300 MYA fellows, 300 Youth Formation Coordinators from the 17 regions, and the BLSS – YFD Staff are requested to participate in the program.

A. Benefits of Microsoft AI Bootcamp

1. **Empowered Staff and Learners**: Through comprehensive training sessions, participants will gain the skills and knowledge necessary to proficiently utilize AI tools within Microsoft 365. This empowerment fosters a culture of innovation and proficiency, enabling participants to enhance productivity and collaboration within their respective roles.

2. **Enhanced Learning Experiences**: Participants will be empowered to deliver engaging and effective educational content, thereby contributing to improved educational outcomes and skill development among their colleagues.

3. **Improved Productivity**: Participants can anticipate noticeable improvements in day-to-day productivity as they become adept at utilizing AI tools within Microsoft 365. These tools streamline workflows, automate tasks, and provide valuable insights, leading to increased efficiency in various projects and responsibilities.

4. **Engagement and Collaboration**: Dynamic interactive sessions hosted on platforms like Microsoft Teams will engage participants in rich learning experiences. Through active participation and collaboration, participants will have the chance to exchange ideas, share knowledge, and learn from one another, maximizing the educational initiatives' impact.

5. **Knowledge Dissemination and Awareness**: Participants will play a vital role in the widespread dissemination of knowledge about Microsoft 365's AI functionalities and cloud technologies. By leading informative sessions, participants will contribute to raising awareness and promoting the adoption of these technologies within their organizations and beyond.

DepEd is committed to nurturing 21st-century skills to facilitate the holistic development of learners. This commitment is strengthened by the introduction of an initiative that focuses on digital literacy, providing learners with essential knowledge in AI and cloud technology, both widely relevant today.
